Date of revision : 19/Nov/2024

Safety Data Sheet

Section 1. Identification of the substance/mixture and of the company/undertaking
Product identifier:
Product name: 2,2,4-Trimethylpentane
Reference number(SDS):49740jis_J_E1−4
Product type:
Reagent
Relevant identified uses of the substance or mixture and uses advised against
Relevant identified uses of the product: Research and Development
Uses advised against: Do not use for other purposes.
Details of the supplier of the safety data sheet
Manufacturer/Supplier: JUNSEI CHEMICAL CO., LTD.
Address: 1-6, Ohmano-cho, Koshigaya-shi, Saitama 343-0844, Japan
Division: Quality Assurance Department
Telephone number: +81-48-986-6161
FAX: +81-48-989-2787
e-mail address: shiyaku-t@junsei.co.jp
Section 2. Hazards identification
GHS classification and label elements of the product
Classification of the substance or mixture
PHYSICAL AND CHEMICAL HAZARDS
Flammable liquids: Category 2
HEALTH HAZARDS
Skin corrosion/irritation: Category 2
Specific target organ toxicity - single exposure: Category 3 (Narcotic effects)
Aspiration hazard: Category 1
ENVIRONMENT HAZARDS
Hazardous to the aquatic environment, short-term (acute): Category 1
Hazardous to the aquatic environment, long-term (chronic): Category 1
(Note) GHS classification without description: Not classified/Classification not possible
Label elements
Signal word: Danger
HAZARD STATEMENT
H225–Highly flammable liquid and vapor
H315–Causes skin irritation
H336–May cause drowsiness or dizziness

H336-May cause drowsiness or dizziness

H304-May be fatal if swallowed and enters airways

H400-Very toxic to aquatic life

H410-Very toxic to aquatic life with long lasting effects

PRECAUTIONARY STATEMENT

Prevention

Avoid release to the environment.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed.

Ground and bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash contaminated parts thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Response In case of fire: Use foam, dry powder, CO2 to extinguish. Collect spillage. Call a POISON CENTER/doctor/physician if you feel unwell. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF ON SKIN: Wash with plenty of soap and water. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. Do NOT induce vomiting. IF SWALLOWED: Immediately call a POISON CENTER/doctor/physician. Storage Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Disposal Dispose of contents/container in accordance with local/national regulation. Specific Physical and Chemical hazards Highly flammable liquid. Vapor/air mixture may explode.

Section 3. Composition/information on ingredients

Mixture/Substance selection: Mixture Common name, synonyms: Isooctane Ingredient name:2,2,4-Trimethylpentane Content (%):99.0 < Chemical formula:C8H18 ENCS:2-8 CAS No::540-84-1 MW:114.23 EC No::208-759-1 Note : The figures shown above are not the specifications of the product.

Section 4. First-aid measures

Descriptions of first-aid measures General measures Call a POISON CENTER/doctor/physician if you feel unwell. Keep victim warm and quiet. Call emergency medical service. IF INHALED Remove person to fresh air and keep comfortable for breathing. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Call a POISON CENTER/doctor/physician if you feel unwell.

2,2,4-Trimethylpentane,JUNSEI CHEMICAL CO., LTD.,49740jis_J_E1-4,19/Nov/2024	
IF ON SKIN (or hair)	
Take off immediately all contaminated clothing. Rinse skin with water or shower.	
Wash with plenty of soap and water.	
In case of burns, immediately cool affected skin for as long as possible with cold water.	
Do not remove clothing if adhering to skin.	
If skin irritation or rash occurs: Get medical advice/attention.	
If skin irritation occurs: Get medical advice/attention.	
Remove and isolate contaminated clothing and shoes.	
IF IN EYES	
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy	
to do. Continue rinsing.	
If eye irritation persists: Get medical advice/attention.	
IF SWALLOWED	
Rinse mouth. Do NOT induce vomiting.	
Immediately call a POISON CENTER/doctor/physician.	
Call a POISON CENTER/doctor/physician if you feel unwell.	
Most important symptoms and effects, both acute and delayed	
(Symptoms when inhalation or ingestion)	
Confusion. Dizziness. Headache. Nausea. Vomiting.	
(Symptoms when skin and/or eye contact)	
Dry skin. Conjunctival redness of the eyes. Redness of the skin. Pain of the skin	
Indication of any immediate medical attention and special treatment needed	
Ensure that medical personnel are aware of the material(s) involved, and take precautions	
to protect themselves.	
to protect themselves.	
to protect themselves. Section 5. Fire-fighting measures	
Section 5. Fire-fighting measures	
Section 5. Fire-fighting measures Extinguishing media	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet.	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment.	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated.	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases.	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution.	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area.	
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area. Cool container with water spray.	
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area. Cool container with water spray. Combat fire from a sheltered position.	
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area. Cool container with water spray. Combat fire from a sheltered position.	-
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area. Cool container with water spray. Combat fire from a sheltered position. Special protective equipment and precautions for fire-fighters Wear fire resistant or flame retardant clothing.	
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area. Cool container with water spray. Combat fire from a sheltered position. Special protective equipment and precautions for fire-fighters Wear fire resistant or flame retardant clothing. Wear protective gloves/protective clothing/eye protection/face protection.	
Section 5. Fire-fighting measures Extinguishing media Suitable extinguishing media In case of fire, use foam, dry powder, CO2 to extinguish. Unsuitable extinguishing media Do not use direct water jet. Water may be effective for cooling, but may not effect extinguishment. Specific hazards arising from the substance or mixture Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Advice for firefighters Specific fire-fighting measures Evacuate non-essential personnel to safe area. Cool container with water spray. Combat fire from a sheltered position. Special protective equipment and precautions for fire-fighters Wear fire resistant or flame retardant clothing.	

Section 6. Accidental release measures

Personnel precautions, protective equipment and emergency procedures

Keep unauthorized personnel away.

In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.

Ventilate area until material pick up is complete.

Wear proper protective equipment.

PUBLIC SAFTY: Ventilate closed spaces before entering.

Do not touch or walk through spilled material.

Environmental precautions

Runoff to sewer may create fire or explosion hazard.

Vapor explosion hazard indoors, outdoors or in sewers.

Avoid release to headsprings, rivers, lakes, ocean and groundwater.

Methods and materials for containment and cleaning up

Absorb spill with inert material (dry sand, earth, et al), then place in a chemical waste container.

Use clean non-sparking tools to collect absorbed material.

All equipment used when handling the product must be grounded.

Preventive measures for secondary accident

Collect spillage.

Stop leak if you can do it without risk.

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Prevent entry into waterways, sewers, basements or confined areas.

Keep out of low areas.

Section 7. Handling and storage

Precautions for safe handling

Preventive measures

(Exposure Control for handling personnel)

Avoid breathing dust/fume/gas/mist/vapors/spray.

(Protective measures against fire and explosion)

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Ground and bond container and receiving equipment.

Use explosion-proof electrical/ventilating/lighting equipment.

Use non-sparking tools. Take action to prevent static discharges.

(Exhaust/ventilator)

Exhaust/ventilator should be available.

(Safety treatments)

Avoid contact with skin.

Avoid contact with eyes.

Safety Measures

Use only outdoors or in a well-ventilated area.

Wear protective gloves/protective clothing/eye protection/face protection.

Use personal protective equipment as required.

When using do not eat, drink or smoke.

Any incompatibilities

Strong oxidizing agents should not be mixed with the chemicals.

Advice on general occupational hygiene

Wash contaminated parts thoroughly after handling.

Take off contaminated clothing and wash it before reuse.

Storage

Conditions for safe storage

Store in a well-ventilated place. Keep container tightly closed.

Keep cool. Protect from sunlight.

Store in accordance with local/national regulation.

Store locked up.

Container and packaging materials for safe handling data is not available.

Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

Section 8. Exposure controls/personal protection	
Control parameters	
Control value and concentration standard value are not available in ISHA.	
Adopted value	
Adopted value in JSOH is not available.	
ACGIH(1999) TWA: 300ppm (URT irr)	
Exposure controls	
Appropriate engineering controls	
Do not use in areas without adequate ventilation.	
Eye wash station should be available.	
Washing facilities should be available.	
Individual protection measures	
Respiratory protection	
Select and wear respiratory protection in accordance with approved standards (e.g. JIS T8150).	
Recommended respiratory protection: Self-Contained Breathing Apparatus (SCBA)	
Hand protection	
Wear protective gloves. Recommended material(s): nitrile, viton	
Inspect before use and replace worn or damaged gloves.	
Contact the glove manufacturer for specific advice on glove selection and breakthrough	
times for your use conditions.	
Chemical-resistant, impervious gloves complying with an approved standard (e.g. JIS T8116)	
should be used.	
Eye protection	
Wear safety glasses with side-shields.	
Wear eye/face protection in accordance with approved standards (e.g. JIS T8147).	
Skin and body protection	
Wear impervious clothing and boots in case of repeated or prolonged treatment.	
Personal protective equipment for the body and skin should be selected based on the task	
being performed and the risks involved.	
Section 9. Physical and Chemical Properties	
Information on basic physical and chemical properties	
Physical state: Liquid	
Color: Colorless	
Odor: Characteristic odor	
Odor threshold data is not available.	
Melting point/Freezing point: -107°C	
Boiling point or initial boiling point: 99°C	
Boiling range data is not available.	
Flammability (gases, liquids and solids): Ignitable	
Lower and upper explosion limit/flammability limit:	
Lower explosion limit: 1.1 vol %	
Lower explosion limit: 1.1 vol % Upper explosion limit: 6.0 vol %	
Lower explosion limit: 1.1 vol % Upper explosion limit: 6.0 vol % Flash point: 4.5°C(Open cup)	
Lower explosion limit: 1.1 vol % Upper explosion limit: 6.0 vol % Flash point: 4.5°C(Open cup) Auto-ignition temperature: 417°C	
Lower explosion limit: 1.1 vol % Upper explosion limit: 6.0 vol % Flash point: 4.5°C(Open cup)	

pH data is not available.

Dynamic viscosity: 0.5mPas(20°C) Kinematic viscosity: 0.7mm2/s(20°C) Solubility: Solubility in water: Insoluble Solubility in solvent: Very soluble in ethanol, diethyl ether. n-Octanol/water partition coefficient data is not available. Vapor pressure: 5.1 kPa (20°C) Vapor density data is not available. Density and/or relative density: 0.690~0.693 g/ml(20°C) Relative vapor density (Air=1): 3.9 Relative density of the Vapor/air - mixture at 20°C (Air = 1) data is not available. Particle characteristics data is not available. Other information Critical temperature data is not available. Evaporation rate data is not available. VOC data is not available. Other information is not available.

Section 10. Stability and Reactivity

Reactivity

Reactivity data is not available.

Chemical stability

Stable under normal storage/handling conditions.

Highly flammable.

Possibility of hazardous reactions

The vapour is heavier than air and may travel along the ground; distant ignition possible.

As a result of flow, agitation, etc., electrostatic charges can be generated.

Heating may cause violent combustion or explosion.

Reacts with strong oxidants.

Conditions to avoid

Contact with incompatible materials.

Open flames. Heating. Sparks.

Incompatible materials

Strong oxidizing agents

Hazardous decomposition products

Carbon oxides

Section 11. Toxicological Information

Information on toxicological effects Acute toxicity Acute toxicity (Oral) [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] rat LD50 >5g/kg (SIDS, 2010; Supplier's data/information) Acute toxicity (Dermal) [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] rabbit LD50 >3160 mg/kg (SIDS, 2010)

Acute toxicity (Inhalation) [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] vapor : rat LC50 =33.52mg/L/4hr (SIDS, 2010; Supplier's data/information) Irritant properties Skin corrosion/irritation [Product] Category 2, Causes skin irritation [Data for components of the product] Skin irritation (Supplier's data/information) Serious eye damage/irritation [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] No eye irritation (Supplier's data/information) Sensitization Respiratory sensitization [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] No data available. Skin sensitization [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] No data available. Germ cell mutagenicity [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] Reverse-mutation assay in bacteria (Ames test) :Negative (Supplier's data/information) Carcinogenicity [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] [EPA] I; Inadequate information to assess carcinogenic potential(2005) Reproductive toxicity [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] No data available. Specific target organ toxicity (STOT) STOT-single exposure [Product] Category 3, May cause drowsiness or dizziness [Data for components of the product] EU CLP : H336 STOT-repeated exposure [Product] Classification not possible (Insufficient data available or no data available). [Data for components of the product] No data available.

2,2,4-Trimethylpentane,JUNSEI CHEMICAL CO., LTD.,49740jis_J_E1-4,19/No
Aspiration hazard
[Product]
Category 1, May be fatal if swallowed and enters airways
[Data for components of the product]
May be fatal if swallowed and enters airways.(Supplier's data/information)
EU CLP : H336
Section 12. Ecological Information
Ecotoxicity
Aquatic toxicity
[Product]
Category 1, Very toxic to aquatic life
Category 1, Very toxic to aquatic life with long lasting effects
[Data for components of the product]
Hazardous to the aquatic environment, short-term (acute)
Crustacea(Daphnia magna)LC50=0.98mg/L/48hr(SIDS, 2010)
Hazardous to the aquatic environment, long-term (chronic)
Crustacea(Daphnia magna) NOEC=0.17mg/L/21day (Supplier's data/information)
timesInformation given is based on data obtained from similar substances.
Water solubility
[Data for components of the product]
none (ICSC, 1999)
Persistence and degradability
[Data for components of the product]
Not readily biodegradable (METI Official Bulletin, 2002)
Bioaccumulative potential
Bioaccumulative potential data is not available.
Mobility in soil
Mobility in soil data is not available.
Other adverse effects
Ozone depleting chemical data is not available.

Section 13. Disposal considerations

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging Waste treatment methods Avoid release to the environment. Dispose of contents/container in accordance with local/national regulation. Section 14. Transport Information UN No., UN CLASS

UN Number or ID Number : 1262 UN Proper Shipping Name : OCTANES Class or division (Transport hazard class) : 3 Packing group : II ERG GUIDE No.: 128 IMDG Code (International Maritime Dangerous Goods Regulations) UN Number or ID Number : 1262 UN Proper Shipping Name : OCTANES Class or division (Transport hazard class) : 3 Packing group : II 

IATA (Dangerous Goods Regulations) UN Number or ID Number : 1262 UN Proper Shipping Name : OCTANES Class or division (Transport hazard class) : 3 Hazard labels : Flamm.liquid Packing group : II Environmental hazards Marine pollutants (yes/no) : yes Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable to Transport in bulk according to Annex II of MARPOL and the IBC Code MARPOL Annex V – HME (Harmful to the Marine Environment) Hazardous to the aquatic environment – short-term (acute): cat.1 2,2,4-Trimethylpentane Hazardous to the aquatic environment – long-term (chronic): cat.1, 2 2,2,4-Trimethylpentane

Section 15. Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Toxic Substances Control Act (TSCA) Inventory

Chemicals listed in TSCA Inventory 540-84-1

All components are listed or exempted.

Other regulatory information

We are not able to check up the regulatory information with regard to the substances in your country or region, therefore, we request this matter would be filled by your responsibility.

Regulatory information with regard to this substance in your country or in your region should be examined by your own responsibility.

Ensure this material in compliance with federal requirements and ensure conformity to local regulations.

Regulatory information in this section are limited to intentional ingredient(s), but does not contain information on non-intentional ingredients or impurities which are not informed by supplier(s).

Chemical safety assessment

Advice on safe handling for this product can be found in sections 7 and 8 of this SDS.

Section 16. Other information

GHS classification and labelling

H225-Flammable liquids, Category 2: H225 Highly flammable liquid and vapour

H315-Skin corrosion/irritation, Category 2: H315 Causes skin irritation

H336-STOT - single exposure, Category 3, Narcotic effects: H336 May cause drowsiness or dizziness.

H304-Aspiration hazard, Category 1: H304 May be fatal if swallowed and enters airways

H400-Hazardous to the aquatic environment, short-term (acute), Category 1: H400 Very toxic to aquatic life

H410-Hazardous to the aquatic environment, long-term (chronic), Category 1: H410 Very toxic to aquatic life with long lasting effects
